## TSP100 SK

**Improve** accuracy and efficiency from order to delivery.

Part of Star's popular TSP100 printer range, the TSP100IV SK is an economical and compact thermal label printer for printing liner-free labels for takeaway and delivery orders and food labels in restaurants and grocery stores. Compatible with a range of low tack liner-free media\*, labels can be removed and repositioned leaving virtually no residue on food and product packaging.

Printed orders and labels improve order accuracy. Labels can be used to accurately track orders throughout the preparation process and then can be attached to the final food and drink packaging for customer collection.

*\*contact Star for supported paper*

- Compact direct thermal linerless label printer
- Low tack linerless re-stick media support (\*contact Star for supported labels)
- 203dpi print resolution for high contrast text, graphics and barcodes
- Fast print speed up to 180mm/s

## ▶ Save paper with liner-free media

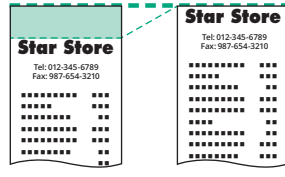

Liner-free media reduces waste as there is no backing paper. The TSP100IV also prints variable length labels, meaning paper isn't wasted for labels or orders with just 1 or 2 line items. A top margin reduction of 5mm, a choice of label widths and vertical text reduction also reduce cost and environmental impact.

### ● Reduced Printing

Save up to **60%**

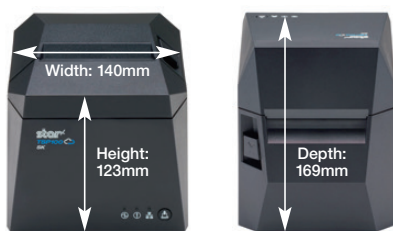

### ● Top Margin Reduction

Save up to **6mm**

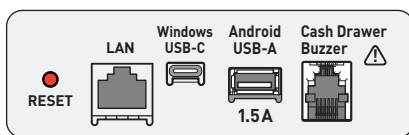

## ▶ Compact and versatile design

The TSP100IV SK, with internal power supply, can operate horizontally, vertically or mounted on a wall and has the same compact footprint as Star TSP100IV-UE.

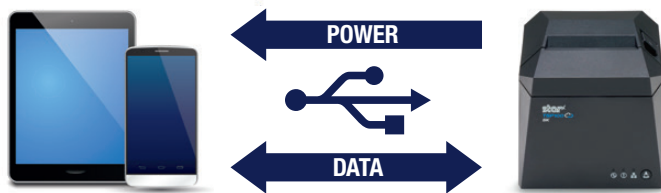

## ▶ Future-proof Connectivity

With a range of connectivity choices, the TSP100IV is ideal for PC, tablet and Cloud based systems.

- USB-C, Ethernet LAN, USB-A and Cash Drawer/Buzzer connectivity
- WLAN connectivity with MCW10 option
- AOA direct sync and charge connectivity for supported Android tablets and devices
- Star CloudPRNT connectivity for Cloud POS and online ordering systems with StarPrinter.Online and Star Micronics Cloud Services Support

## ▶ Free Cloud Label Design Software

Unlock the full potential of your Star label printer by registering with **Star Micronics Cloud Services** and gain access to the free Star Label Builder. Whether you prefer to use existing templates or creating entirely customizable labels, this user-friendly platform allows you to seamlessly combine text, barcodes, and graphics for unique, repositionable label designs.

## Specifications

Technology	Direct Thermal Label Printer
Max. Print Speed	180mm/sec.
Resolution	8 dots/mm (203 dpi)
Media Support	Linerless labels – *contact Star for supported paper
Autocutter	Guillotine (partial cut)
Paper Width	Standard 80mm (40mm or 58mm with included paper guides)
Paper Roll Diameter	Max. 83mm
Paper Thickness	65µm to 98µm
Top Margin	5mm (default), 11mm
Minimum Printing Length	24mm
Media Presentation	Horizontal – top or vertical – front
Sensors	Taken sensor, Paper end sensor, Cover open sensor
Paper Loading	Drop-In & Print
Connectivity	<ul style="list-style-type: none"> <li>• USB-C</li> <li>• USB-A x 1 Android AOA/Peripherals Connectivity</li> <li>• Ethernet LAN</li> <li>• Wireless LAN (with optional MCW10 Wireless LAN Unit)</li> <li>• Cash drawer/buzzer connection</li> </ul>
